

Career Opportunities

Criswell College offers career opportunities to Christ-centered individuals who desire to transform culture through the daily task of engaging minds. Opportunities are available with competitive wages, benefits packages including health, dental and life insurance, paid time off and retirement savings programs, and education benefits, depending on the level of employment status.

Our Mission: *The mission of Criswell College is to provide ministerial and professional higher education for men and women preparing to serve as Christian leaders throughout society, while maintaining an institutional commitment to biblical inerrancy.*

The college's mission statement drives our institutional planning, affecting both curricular and co-curricular activities. It shapes everything from our financial goals and plans, to our hiring decisions, and our marketing strategies, and provides purpose and vision to our everyday tasks. Most importantly, however, it shapes the Criswell student experience, equipping all our students – whether their plans are to serve in traditional paid ministry, in some other career, or a combination of both – to influence the culture for Christ.

If being a part of the mission of the Criswell as a faculty or staff member interests you, send your resume to our [Director of Human Resources](#) or calling 214-818-1317.
