#### Required Textbooks

Vossler, A., & Moller, N. (2014). *The counselling and psychotherapy research handbook* (1<sup>st</sup> Ed.). Thousand Oaks, CA: Sage. ISBN-10: 1446255271

## Course Requirements and Assignments

1. Twenty-five percent (25%) of the student's grade will be based upon six Summary Outlines from the textbook, *The counseling and psychotherapy research handbook*. The six chapters are the following:
  - Chapter 1 Setting the Scene: Why Research Matters
  - Chapter 2 Attitudes to and Perceptions of Research
  - Chapter 3 Choosing a Research Question
  - Chapter 4 How to Read and Understand Research
  - Chapter 5 Doing a Literature Review
  - Chapter 6 Introduction to Research Methodology
2. Fifty percent (50%) of the student's grade will be based on the completion of a Research Paper. The student must select a research topic with associated research questions within the first 14-days of the beginning of the course. The topic and questions must be approved by the professor. The research paper length should be between 20 to 25 pages in length (excluding the Title Page, Abstract, and Reference pages). The paper should have a minimum of 20 different sources (no more than 10 years old) including, at least, 10 journal articles (less than five years old) from reputable, peer-reviewed journals. Students will be required to incorporate their Summary Outlines from the textbook into the writing of their paper, and explain in detail their synthesis of information. The Research Paper must be in APA Style and Format. An APA sample paper and detailed instructions for APA Style and Format can be viewed at the following link:

- <https://owl.english.purdue.edu/owl/resource/560/01/>

When writing and organizing the paper, the student is to create and maintain a basic structure according to APA style, and consider the following more detailed questions

- Introduction: \_\_\_\_\_ (20 pts.) Does the paper have a clear introduction? For example, does the paper address current statistics, current events, and current research regarding the topic in order to appropriately introduce and grab the reader's attention? Does the paper include an abstract? Does the paper include an APA Style Title Page? Does the introduction address the main objectives of the research paper, and clearly identify the key research questions to be examined?
- Body of the Text: \_\_\_\_\_ (25 pts.) Does the researcher conduct a thorough review of the literature, above and beyond the minimum requirements? Does the paper address the most important dimensions, key concepts, current expert theories, and hypotheses regarding the research topic? Are the sources cited throughout the body of the paper according to APA style? Does the student link together his/her research in a clear manner without using first person, instead using third person? Does the student use substantive/ample sources throughout the document? Does the body of the paper "flow" in a logical, seamless fashion using effective transition sentences? Does the paper follow the principles in the textbook for conducting a thorough literature review (Vossler, 2014)?
- Methodology: \_\_\_\_\_ (20 pts.) Does the method section address the main subsections to be defined and described including: Participants, Materials, Design, and Procedure? Does the student identify who will be participating in the study i.e., the population from which the participants were chosen, and any restrictions? Did the student identify the testing instruments, surveys, instruments that will be used, including their validity and reliability? Did the student identify the type of design that will be used in the study? Did the student

identify the independent variables, dependent variables, and/or control variables? Did the student describe in detail the procedures, the steps regarding what participants will be required to do, how data will be collected, and the detailed order in which steps will occur?

- Conclusion, Practical Implications, Suggestions for Future Research: \_\_\_\_\_ (20) Does the student provide principles, implications, and practical applications of the researched topic for mental health professionals according to the research? In other words, does the student answer the “So what?” question in the concluding paragraph, according to the research? Does the student include suggestions for future research?
- Grammar and APA Style \_\_\_\_\_(15 Pts.) Are the sentences complete as opposed to fragmented sentences? Are there few grammatical mistakes? Are there spelling mistakes? Is there a title page, abstract, and Reference page? Is the paper written in 3<sup>rd</sup> person? Is the paper according to APA style?

The following two rubrics will also be used to score the research paper in the areas of 1) quality of APA Style and format, and 2) Critical Thinking:

- <https://www.rcampus.com/rubricshowc.cfm?code=Z99W78&sp=yes> (APA Style Rubric)
  - <http://assessment.arizona.edu/sites/default/files/CriticalThinking.pdf> (Critical Thinking Rubric)
3. Twenty-five percent (25%) of the student’s grade will depend upon attending regularly scheduled class meetings, and class participation over the course of the semester. Students will be responsible for scheduling these meetings, and attending these meetings, a minimum of six meetings over the course of the semester. In addition, students will be required to share the findings of their research, and share about their “Research Writing” experience in a two to three page “Reflection Paper” and final class meeting at the conclusion of the semester. This final (25%) subjective requirement evaluated by the Professor will be assessed at the conclusion of the semester.
  4. Finally, it is important for students to note that no late work will be accepted. It is the student’s responsibility to fulfill all requirements for the course in a timely fashion.

## Class Attendance

Students are responsible for enrolling in courses for which they anticipate being able to attend every class session on the day and time appearing on course schedules, and then making every effort to do so. When unavoidable situations result in absence or tardiness, students are responsible for acquiring any information missed. Professors are not obliged to allow students to make up missed work. Per their independent discretion, individual professors may determine how attendance affects students’ ability to meet course learning objectives and whether attendance affects course grades.

Academic dishonesty includes, but is not limited to:

- cheating of any kind,
- submitting, without proper approval, work originally prepared by the student for another course,
- plagiarism, which is the submitting of work prepared by someone else as if it were his own, and
- failing to credit sources properly in written work.

The student is responsible to setup and maintain email forwarding without assistance from college staff. If a student chooses to use this forwarding option, he/she will continue to be responsible for responding appropriately to all communications from faculty and administrative departments of

the college. Criswell College bears no responsibility for the use of emails that have been forwarded from student email accounts to other email accounts.
