Bible Study:

Each student will create a Bible Study from the research paper that could be presented to teach a Sunday School class, discipleship group, or other small-group study. The purpose of this paper is to link the practice of good biblical scholarship with the praxis of Christian ministry. Christian academic pursuit should also be done for the good of the community. Present your academic findings in such a way that they can be accurately shared in a non-academic setting. The length of this study should be between 3 and 5 pages in length.

Final Exam:

For the exam, questions will be asked from the readings in the text as well as from content in the online lectures. Students will have one week to complete the exam, no late exams will be accepted.

Reading:

Students will be asked on the Final Exam to share what percentage of the required reading was completed from the textbooks and the online sessions. They will select the answer most closely associated with the amount of reading completed.

Class Participation/Class Discussion:

In order to receive full credit for class participation every week, each student must respond to the professor's Class Discussion question for that week by Wednesday at 11:55 P.M. of that week. Next, the student must respond to at least two other students' posts by Friday at 11:55 P.M. of that same week. Finally, the student must answer any questions that are asked of him/her by other students by Sunday at 11:55 P.M. in your time zone at the end of that week. Please be courteous to other classmates by not waiting until the last minute each week to post on the Discussion Board. There are a total of 6 required class discussions.

Additional Discussion Board Guidelines (Maria Puzziferro):

An acceptable post to the Discussion Board would contain accurate, original, and relevant comments. The comments should stimulate additional thought about the issue being discussed. A simple "I agree" or "I disagree" will not be counted as an adequate comment.

- Your postings should reflect a) facts, b) logical reasoning, c) be related to the topic, d) be written well (no spelling errors, etc.), and e) be on time. Try to avoid sharing your personal opinions if you cannot back them up with facts and/or statistics.
- You may certainly express your views and beliefs in the context of the discussion topic, but DO NOT use your views to attack others. Simply use your best judgment and treat others with respect. This will be important to bear in mind as we discuss very sensitive and controversial issues.
- Read the assigned chapters before you post your response to the question so that you can tie in the main ideas and facts in the readings to your postings.
- You will be evaluated on the quality and thoughtfulness of how you present your point of view. A quality message is well thought out, clearly presented, and well-formulated.

- When posting, be sure to present your thoughts and point of view in an unbiased way. You can and should cite evidence for your assertions where appropriate. Use your textbook, and other selected web resources as educational aids.
- Your postings should be clear, yet concise. Please do not feel as though you have to write a lot. Think quality over quantity.
- Please try to keep messages to one paragraph (150-200 words), if possible.
- Once you have posted, check back frequently to see if anybody has responded to you.

Course/Classroom Policies and Information

Attendance

Students are responsible for enrolling in courses for which they anticipate being able to participate weekly during the weeks appearing on course schedules, and then making every effort to do so. Such participation may include the following: completing quizzes or exams; emailing faculty or class members as part of an assignment; discussion board posting or response; turning in an assignment; or other communication reflecting ongoing learning in the course. When unavoidable situations result in non-participation, students are responsible for acquiring any information missed. Professors are not obliged to allow students to make up missed work. Per their independent discretion, individual professors may determine how participation affects students' ability to meet course learning objectives and whether participation affects course grades..

Grading Scale

(Assigning grade definitions [i.e., above average, average, below average] is optional. Please delete the last column below if not assigning definitions. Additionally, delete these instructions when completing syllabus.)

Incomplete Grades

Students requesting a grade of Incomplete (I) must understand that incomplete grades may be given only upon approval of the faculty member involved. An "I" may be assigned only when a student is currently passing a

course and in situations involving extended illness, serious injury, death in the family, or employment or government reassignment, not student neglect.

Students are responsible for contacting their professors prior to the end of the semester, plus filing the appropriate completed and approved academic request form with the Registrar's Office. The "I" must be removed (by completing the remaining course requirements) no later than 60 calendar days after the grade was assigned, or the "I" will become an "F."

Academic Honesty

Absolute truth is an essential belief and basis of behavior for those who believe in a God who cannot lie and forbids falsehood. Academic honesty is the application of the principle of truth in the classroom setting. Academic honesty includes the basic premise that all work submitted by students must be their own and any ideas derived or copied from elsewhere must be carefully documented.

Academic dishonesty includes, but is not limited to:

- cheating of any kind,
- submitting, without proper approval, work originally prepared by the student for another course,
- plagiarism, which is the submitting of work prepared by someone else as if it were his own, and
- failing to credit sources properly in written work.

Institutional Email Policy

All official college email communications to students enrolled in this course will be sent exclusively to students' institutional email accounts. Students are expected to check their student email accounts regularly and to respond in an appropriate and timely manner to all communications from faculty and administrative departments.

Students are permitted to setup automatic forwarding of emails from their student email accounts to one or more personal email accounts. The student is responsible to setup and maintain email forwarding without assistance from college staff. If a student chooses to use this forwarding option, he/she will continue to be responsible for responding appropriately to all communications from faculty and administrative departments of the college. Criswell College bears no responsibility for the use of emails that have been forwarded from student email accounts to other email accounts.

Identity Verification

Students enrolled in Distance Education courses are required to present a photo ID to verify their participation in each course at the beginning of the term. Confirmation will occur through live-streamed meetings, video assignments, scheduled video conference calls, and/or another online video medium the professor assigns.
