

Program maps are intended to help students in both registering for courses in the recommended sequence and tracking their progress through those courses. Students should consult the Academic Catalog for requirements regarding specific courses, programs, and graduation. Students should use SONIS, the college's student information system, to perform degree audits since the information in SONIS contains each student's official course and credit information.

Name: _____

Date: _____

The Bachelor of Arts in Psychology provides a foundation for many different careers by teaching interpersonal, analytical, and critical-thinking skills from a Christian worldview. Graduates with a major in psychology are equipped for positions in the local church, business, education, industry, the mental health field, and other areas where a psychology background is either required or enhances the individual's qualifications for employment. The undergraduate program in psychology provides an excellent foundation for students pursuing advanced degrees in psychology or counseling, leading to professional careers as practitioners and/or educators.
