

Program maps are intended to help students in both registering for courses in the recommended sequence and tracking their progress through those courses. Students should consult the Academic Catalog for requirements regarding specific courses, programs, and graduation. Students should use SONIS, the college's student information system, to perform degree audits since the information in SONIS contains each student's official course and credit information.

The goal of the Biblical Studies major is to prepare students to study the Bible efficiently and to communicate it effectively in a contemporary setting. Although there are more Bible study resources and aids available today than ever before, biblical illiteracy still seems to be on the rise even among those who have been raised in a Christian environment. Since we affirm that the Bible is "God's revelation of Himself to man" and "a perfect treasure of divine instruction," we believe it is important for those who will communicate its message to do so with accuracy and truth for the benefit of the body of Christ.
